Q4

To reach our collective potential, we must work together to build up Ottawa. That requires a council in which each member commits to city wide leadership. What is your intended approach to collaboration with council, city staff and economic partners?

Collaboration can only happen if everyone is open to it and an effective leader must create that environment. I am a natural bridge builder and I already engage with stakeholders, community associations and work collaboratively with different levels of government on a daily basis. I know this is essential to achieving real results. I also consistently lead by example and create a welcoming and inclusive environment which allows cooperation and teamwork to happen. I am an effective communicator and will ensure that transparency and communication are the minimum standards expected at all times. I understand and aim to ensure that all members be recognized as this leads to inspired brainstorming and decision-making.

I would bring my executive leadership skills honed by working on many community Boards to the table when working with Council, city staff and economic partners. I come from a background of hands on and working Board roles. I consistently model the hard work needed to move projects forward.

Q5

What key characteristics and skills do you possess that make you a great leader and ambassador for the city of Ottawa, and the national capital region?

The main key characteristic I possess is that I love Ottawa. It is my City and I know this City. Ottawa is a world class city and we should continue to replicate great tourism events that have happened in the past while bringing in new ideas.

A native Ottawan, I know little secret places and have played tourist in this City my whole life. I use all the National Capital Region's amenities in every season whether it be ski trails, skating the Canal, bike paths, hiking and running routes, visiting museums, enjoying patios, enjoying sports venues, farmers' markets etc. I would bring that knowledge and that joy to any ambassador role I would play.

Q6

What are your top three priorities for Ottawa's future?

My top 3 priorities for Ottawa's future are:

- 1) boost the tourism industry
 - 2) remove red tape for businesses, small and large
 - 3) keep taxes affordable
-
