## Q4

To reach our collective potential, we must work together to build up Ottawa. That requires a council in which each member commits to city wide leadership. What is your intended approach to collaboration with council, city staff and economic partners?

I will work hard to ensure that we all can come up with constructive compromises with the many disagreements that we will constantly have and make sure everyone understands that I want to make a better future for all and will do whatever I can to achieve that.

---

## Q5

What key characteristics and skills do you possess that make you a great leader and ambassador for the city of Ottawa, and the national capital region?

I have great energy, passion and vision and care deeply about the people of Ottawa and our whole world. I want to help lead us into our uncertain and scary future.

---

**Q6**

What are your top three priorities for Ottawa's future?

1. We must change our greenbelt. We have the biggest city corn fields in the world, by far, and unnecessary urban sprawl . I have an exciting, logical and ambitious plan to replace them. First with more trees, then build state-of-the-art eco-cities. ctog.ca
  2. We must build some kind of garbage incinerator and greatly improve recycling and composting.
  3. Put a hold on moving forward with phase three LRT. We must make buses more efficient and effective. Smaller driverless buses should be on the transitways within five years.
